

How to apply **LARGE** Wall Glamour

Step One - Position vinyl then masking tape onto surface. Some items will be supplied pre-cut but it may be of use to trim around the graphic to aid applying.

Step Two - Tape wall sticker across the centre, making sure there is enough tape to hold onto the wall.

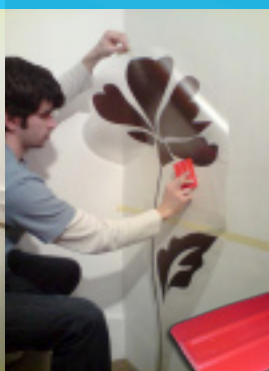

Step Three - Untape top edge of sticker, carefully peel the backing paper to half way, making sure all the graphic is on the clear transfer film. If the vinyl is stuck to the paper smooth the paper back onto the transfer film until it sticks.

Step Four - Trim the backing paper off at halfway so that the top part of the sticker can be applied to the wall.

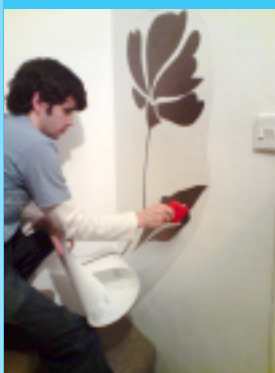

Remember vinyl is very sticky so keep the adhesive away from the wall or clothing.

Step Five - Move the scraper upwards (from the halfway point) over the film at 45 degrees as you apply. Apply in a firm smooth motion so you don't get any air bubbles.

Step Six - Once you have applied the top half, carefully peel the backing paper from the bottom half, making sure all the graphic is on the clear transfer film.

Step Seven - Move the scraper downwards (from the halfway point) over the film at 45 degrees as you apply. Apply in a firm smooth motion so you don't get any air bubbles.

Step Four - Wait about 30 mins then peel back the edge of transfer film & remove by pulling slowly and carefully away at 180 degrees to vinyl. Make sure none of the vinyl pulls up with the transfer film. Take care when removing from a painted wall.

For those who would like it there is a more in depth version of these instructions on our website at <http://www.wallglamour.co.uk/pages/applying-vinyl-indepth>

Whilst we strive to supply you with a perfect product if you are not happy with the condition in which it was received please call us and send back the damaged item.
